Subject RE: Request for Review: State's Alternate Rad. Assessment Proposal

Brad-

Attached are my comments on the State's Residential Survey Plan. Please call me if you have any questions or would like to discuss. I have included both WORD and Word Perfect formats.

Brian P. Hearty, CHP  
Health Physicist

Subject: FW: Request for Review: State's Alternate Rad. Assessment Proposal

Brian,

Do you have enough funding to include a review of this item?

Doris

Subject: Request for Review: State's Alternate Rad. Assessment Proposal

Phosphate Team (Especially HPs and Regulatory Specialists):

Below is an alternate proposal submitted by the Florida Department of Health to be used post-aerial radiological survey. The proposal addresses the evaluation of the significance of radiation levels as well as thresholds for taking response actions. I don't want to bias anyone's thinking by characterizing the proposal...its short and to the point.

FDOH is requesting our comments ASAP. Since this is time critical, I would appreciate any comments you may have by COB Thursday (2/17).

Thanks for your help.

Brad

Brad - Attached is a suggested plan that could be used post-screening in affected residential areas. It has been reviewed by our division folks as well as staff in ATSDR. We feel it is a reasonable approach that should be considered in this situation. Would you please review and let us know your thoughts on this approach as soon as possible. If you have any questions, please give me a call. Thanks Bill
